

Dear Van Ness Avenue Resident,

We apologize for any inconvenience or confusion the new bike lane may have caused you, and we ask that you trust we are diligently working on a bike lane that is a better fit for our community.

We ask for your patience while we work on a better solution to our bike lane striping on your street. While we work on a solution, the City of Fresno has relaxed the parking along the curb, allowing you to continue to have access to parking in front of your residence without a fine.

Van Ness Avenue residents can expect to see our construction crews working in the coming weeks correcting the bike lane striping and parking issues.

Again, we apologize, and rest assured we will correct the parking issue.

Thank you,

Jill Aiello
Projects & Communications Liaison
Department of Public Works
City of Fresno
